Lighthouse Referral Program

How it works

Introduce a personal injury firm to Lighthouse. When they sign and pay for an annual plan, you earn a reward and they get a 2-month discount on their first year.

Lighthouse builds AI voice agents that handle client intake for personal injury firms, so after-hours and overflow calls become signed cases instead of voicemails.

Who makes a great referral

The best fit is a firm where a missed call means a missed case worth tens of thousands. Look for firms that:

- Spend real money on advertising or on intake staff and answering services to generate calls
- Have enough call volume that capturing leads is a critical economic activity
- Worry about calls going to voicemail, especially after hours

Not a fit: low-volume firms that rarely miss a call.

Program terms

- **New firms only.** The referred firm must not already be a Lighthouse customer or in active conversations with us in the last 90 days.
- **Annual prepaid plans only.** Monthly plans do not earn rewards.
- **Paid when we're paid.** Rewards are earned only on cash received. If a referred firm receives a full or partial refund, the reward is reduced or reversed to match.
- **One referrer per firm.** If two people refer the same firm, the first referral code used wins. Lighthouse makes the final call on attribution.
- **Free months** are added to your current contract term, have no cash value, and can't be transferred.
- **Referrers don't represent Lighthouse.** Please don't make promises about pricing, features, or results on our behalf.
- **No ties to legal matters.** Rewards are never tied to any case, client, or legal fee.
- Lighthouse may update or end this program at any time. Rewards already earned will be honored.
